tract disorders since 1964

American Society for Colposcopy & Cervical Pathology

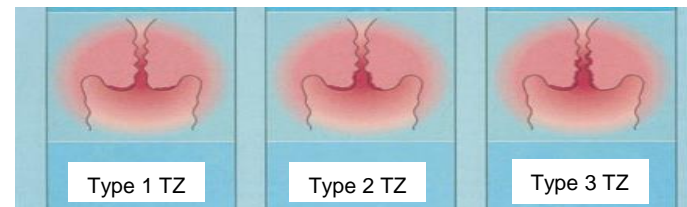

SFCPCV

La Société Française de Colposcopie et
de Pathologie Cervico-Vaginale

Indian Society of Colposcopy and
Cervical Pathology (ISCCP)

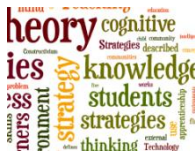

A comprehensive, multimodal training course incorporating theoretical knowledge, image recognition and clinical skills followed by an exit examination and a certificate of course completion for successful trainees

At a glance

Comprises 4 modules
(over approximately 12 months)

1. Theoretical knowledge

29 online video recorded lectures delivered weekly over 6 months, each followed by MCQs

2. Image recognition skills

28 case images delivered weekly (6 months)

3. Case management skills

Individual video recorded cases delivered

4. Clinical colposcopy skills

Mandatory attendance at an accredited colposcopy trainer's clinic to perform 50 directly supervised cases

Mandatory performance of 50 indirectly supervised cases; recorded in designated logbook to be certified by the accredited trainer

Further information: <http://www.ifcpc.org> (Education & Courses) and <http://screening.iarc.fr/>

Registration 1: Apply on-line through <http://www.ifcpc.org>

Registration 2: Eligible candidates will be cleared to sign-up

Project Manager: Evelyn Bayle colpodistancetraining@gmail.com

Eligibility and practicalities

Trainee requirements

- Eligible to practice colposcopy as per National regulations
- Has access to a colposcopy clinic
- Has Internet access
- Has the possibility to attend an accredited colposcopy clinic for practical training
- Has the necessary time available to complete course requirements
- Can attend the exit Objective Structured Clinical Examination (OSCE) at end of course

Trainer requirements

- Has adequate experience in colposcopy and management of screen-positive women
- Has sufficient time and clinical case-load to facilitate one or more trainee(s)
- Has time available to attend an IFCPC-IARC *Training the Trainers* seminar before the course
- Can complete the on-line theoretical course (free of charge to trainers) prior to taking on trainees
- Has sufficient clinical throughput to facilitate/enable the course for one or more trainee(s)

Cost (to trainees): US\$500 (plus travel to take the OSCE at a designated national centre)
