

Advance Your Gynaecological Skills with India's Premier Colposcopy Training Programme

“Fellowship in Colposcopy and Cervical Pathology” FICCP

Organized by

Indian Society of Colposcopy and Cervical Pathology (ISCCP)

“Advanced Training Programme for Gynaecologists”

Programme Overview

A 6-month intensive hybrid programme designed to provide comprehensive training in colposcopy and cervical cancer prevention. The fellowship is conducted at ISCCP-recognized centers across India, under the supervision of accredited trainers.

Key Features

- Weekly interactive theory classes (online)
- Hands-on training at designated clinical centers
- Maintenance of case logbooks by each trainee
- Training in cervical cancer screening methods, colposcopy of screen-positive cases, management of pre-invasive lesions, and appropriate follow-up protocols
- Observational or assistive exposure to operative procedures, including: Punch biopsy, Cryotherapy, Loop Electrosurgical Excision Procedure (LEEP), Wedge biopsy, Cold knife conization

Assessment

Final exit exam conducted at the end of training for certification

Eligibility Criteria

Diploma & Postgraduate (Obst & Gynae)

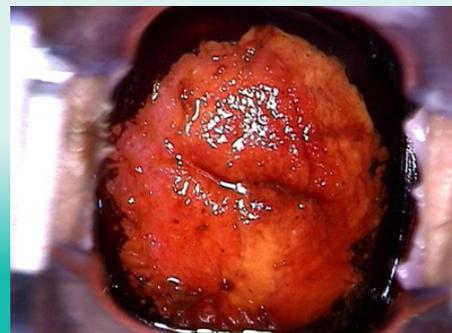

Life Membership is compulsory (Non-members must take Life Membership at the time of registration)

Training Fee

- For Indian Candidates: ₹ 15,000 + 18% GST
- For International Candidates: ₹ 30,000 + 18% GST
