From South: Dr. GS Jyothi

ISCCP ACTIVITIES: NORTHEAST: DR. HELEN KAMEI

1) Cervical screening at Ragailong on 29/1/22
Method:- Pap smear
No. of abnormal smear= 1 (ASCUS)

2) Dolang under District NCD cell, Noney on 12/3/22
Total no. of participants= 36
No of VIA positive= 3

3) District Hospital, Tamenglong- 6/6/22
Total no. of participants= 296
Methods of screening:-
HPV test= 80
VIA and VILI= 216
No. of HPV positive= 6
(2 HPV 16, 1 HPV 18 and 3 other HPV types)
VIA positive=2

4) Loktak Project, Moirang on 12/6/22
Total no. of participants= 23
Method of screening- VIA
RESULTS:- 4 VIA positive

5) District Hospital, Churchandpur -10/8/22.
Method of screening= VIA, VILI, pap smear and HPV DNA.
Total no. of participants= 32
Results: 1 HPV positive, 3 VIA positive and 1 abnormal smear(HSIL)

6) Hillside Hospital -28/8/22.
Method of screening= VIA, VILI, pap smear and HPV DNA.
Total no. of participants= 13
HPV positive 0 , 2 VIA positive and 3 HSIL

7) CERVICAL screening done at Maram Khullen on 13/11/22.
Method of screening= VIA, VILI and pap smear
Total no. of participants= 7
RESULTS
VIA positive - 1
Pap smear - 5 inflammatory smear
- 2 ASCUS

8) One day cervical cancer awareness programme was held on 21st January 2023

9) TAMENGLONG INRIANGLONG PHC- 9/12/22 and 10/12/22

Total screened-44
Total VIA and PAP smear taken- 44
VIA positive = 3
PAP SMEAR – 1 ASCUS

10) Tamei -February 2023

Method of screening= VIA, VILI, pap smear and HPV self sampling
Total no. of participants= 172
Results: VIA positive=11, HPV positive= 10, Abnormal smear=10

11) OINAMLONG CAMP- 29/04/23

Total VIA and PAP smear taken- 92
Total HPV sample taken- 94
VIA positive = 6(Biopsy taken)
Results: 6 VIA positive, 4 abnormal smear and 7 HPV positive

12) NONEY HEALTH CAMP- 28/08/23

Total registered women- 83
Total VIA and PAP smear taken- 80
Total HPV sample taken- 75
VIA positive = 10

13) KEIKHU HEALTH CAMP- 14/10/23

Total screened women- 28
Screening method used= PAP smear and HPV testing
Total HPV sample taken= 25
Total pap smear done= 26
All pap results were insignificant and all women tested negative for HPV

14) HPV vaccination training programme held on 17th Nov, 23

15) One day orientation workshop- Management of pre cancerous cervical lesion held in JNIMS on 2/12/23

16) TAMENGLONG DISTRICT HOSPITAL- 9/12/23 and 10/12/23

Screening method used: HPV DNA testing and Pap smear

Total registered women- 100

Total PAP smear taken- 91

Total HPV sample taken- 81

Total HPV positive: 6(2 HPV 18 , 2 HPV 16 and 2 HPV Other high risk)

Abnormal pap smear result: 1 Squamous cell carcinoma, 1 LSIL and 8 ASCUS

17) TOUSEM , TAMENGLONG – 22/1/24

Screening method used: HPV DNA testing, VIA and Pap smear

Total registered women- 47

Total HPV sample taken- 30

Total VIA performed- 38

Total VIA positive- 3 (2 biopsies taken : 1 reported invasive squamous cell carcinoma(moderate differentiation)

Total PAP smear taken- 40

PAP abnormal results : 1 strongly suspicious of squamous cell carcinoma , 2 ASCUS and 1 Atypical endocervical glandular cells

18) TAMENGLONG DISTRICT HOSPITAL – 23/1/24

Screening method used: HPV DNA testing, VIA and Pap smear

Total registered women- 86

Total HPV sample taken- 70

Total VIA performed- 83

Total VIA positive- 10

5 thermal ablation done and 5 LEEP procedure performed

Total pap smear taken - 79

PAP abnormal results : 1 HSIL , 5 ASCUS and 3 Atypical endocervical cells- NOS

19) TOUSEM , TAMENGLONG – 9/03/24

Screening method used: HPV DNA testing and VIA

Total registered women- 56

Total HPV sample taken- 37

Total VIA performed- 50

Total VIA positive- 4 (Biopsy results- 1 HSIL, 2 LSIL and 1 chronic cervicitis with koilocytic atypia)

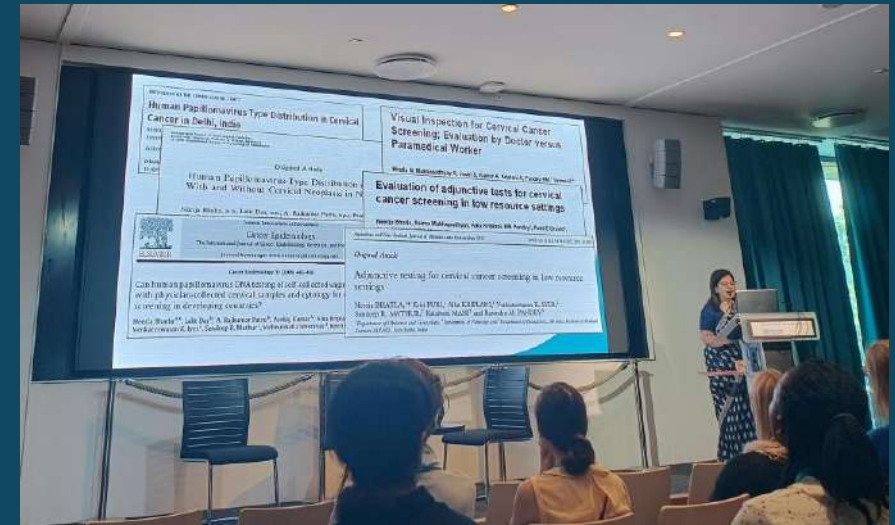

20) HPV VACCINATION UNDER ISCCP

TOTAL NUMBER VACCINATED – 277

Activities by Members

Dr. Madhu Gupta

School Vaccination & Screening

Let Us all Work Together to reach the Goal of Cervical Cancer Free World
